Do you wish to Economise ? Then buy a good article, even if you have to pay a trifle more for it. It is waste of money to buy shoes, for instance, that will not last any time better to buy such as are well made, and of the best materials, and will wear well. Is not this true? Then call at the subscriber's shoe store, where none but custom made shoes are kept. All kinds of Ladies and Children's made of the very best materials, and by superior workmen, and all warranted. These shoes never rip; the only complaint is, "they never wear out."

The subscriber is prepared to supply his customers, and all who may become such, with the finest and most highly finished Shoes, Gaiters, Boots, Slippers, &c., as well as with the strongest and heaviest kind of Children's School, or every day shoes, intended for durability and hard service, and which last also includ a servant's Shoes and Boots, strongly made, yet handsomely finished, and warran ed to every purchaser.

Shoes of this kind, namely-mrde of the best materia's and by the best workmen-cost at first but a trifle more than those that are only made to sell; but will outwear three or four pairs of the latter, and of course are much the cheapest. Ar important consideration to all who have large fami-lies to provide shoes for, and not very long purses to draw from. Dr Franklin never bought a poor article if he could get a good one, and it is generally believed he was a wise man.

Then call, one and all; follow the example of

that great and wise man, and test for yourselves this important question of practical economy. C. WIERMAN, 15th street, between G and H.

C. W. FENTON. PRINTER AND STEREOTYPER.

Note.—The country trade will find it greatly to their advantage to call and examin, for themselves before purchasing elsewhere, as every article is fresh, new, and cheap.

IMPORTANT DISCOVERY.

CONSUMPTION AND ALL

DISEASES of the LUNGS and THROAT CAN BE CURED BY INHALATION.

CURED BY INHALATION.

WIRCH CONVEYS THE REMEDIES TO THE cavities in the lungs, through the air passages, and coming in direct contact with the disease, neutralizes the subercular matter, allays the cough, causes a free and easy expectoration, heals the lungs, purifies the blood, imparts renewed viability to the nervous system, giving that tone and energy so indispensable for the restoration of health. To be able to state confidently that Consumption is curable by inhalation, is to me a source of unalloyed pleasure. It is as much under the control of medical treatment as any other formidable disease; ninety out of every hundred cases can be cured in the first stages, and fifty per cent, in the second; but in the third stage, it is impossible to save more than five per cent, for the Lungs are so cut up by the disease as to bid defiance to medical skill.—Even, however, in the last stages, Inhalation affords extraordinary relief to the suffering attending this feaful scourge, which annually destroys ninety-five, thousand persons in the United States alone; and a crreet calculation shows that of the present population of the earth, eighty millions are destined to fill the Consumptive's grave.

Truly the quiver of death has no arrow so fatal as Consumption. In all ages it has been the greatenemy of life, for it spares neither age nor sex, but sweeps off alike the brave, the beautiful, the graceful and the gifted. By the help of that Supreme Being from whom cometh every good and perfect gift, I am enabled to offer to the afflicted a pernanent and speedy cure in Consumption. The first cause of tubercles is from impure blood, and the immediate effect produced by their deposition in the lungs is to prevent the free administered through the stomach; the patient will always find the lungs free and the breathing easy, after inhaling remedies. Thus, Inhalation is a local remedy, nevertheless it acts constitutionally, and with more power and certainty than remedies administered by the stomach. To prove the powerful and direct WINCH CONVEYS THE REMEDIES TO THE

on long experience and a thorough investigation. My perfect acquaintance with the nature of tubercles, &c., enables use to dictinguish, readily, the various forms of dise se that simulate consumption, and applying proper remedies, rarely being mistaken even in a single case. This familiarity, in connection with certain pathological and microscopic discoveries, enables me to relieve the lungs from the effects of contracted chests, to enlarge the chest, purify the blood, impart to it renewed vitality, giving energy and tone to the entire system.

Medicines with full directions sent to any part of the United States and Camidas by patients communicating their symptoms by letter. But the cure would be more certain if the patient should pay me a visit, which would give an opportunity to examine the lungs, and enable me to prescribe with much greater certainty, and then the cure could be effected without my receing the patient again. All letters asking advice must contain a postage stamp.

TO ALL THATVALUE THEIR SIGHT JOHN Costa Concession PICTIC

VISHES TO CALL THE ATTENTION OF all that suffer with defective sight, caused by age, sickness, and particularly from glasses injudiciously selected, to his superior Spectacles and Glasses, carefully ground by himself to a true spherical accuracy, and brilliant transparency, suited precisely and beneficially to the wearer, according to the concavity or convexity of the eye. Very numerous are the ill effects caused to the precious organs of sight from the commencement of using glasses in not being precisely suited, by the use of an optometer; and the practice of many years enables me to measure the focal disease of the eyes, and such glasses that are absolutely required will be furnished with precision and satisfaction.

J. T. acknowledges the very liberal encouragement already obtained, and further solicits the patronage of those that have not yet availed themselves of his aid.

Persous that cannot conveniently call by sending

aid.

Persous that cannot conveniently call, by sending
the glasses in use, and stating how many inches they
can read this print with their spectacles, can be supplied with such that will improve their sight.

Circulars to be had grain, at his office, No. 512 up stairs.

Innumerable testimonials to be seen, and refer-

ences given to many who have derived the greatease and comfort from his glasses.

WILMINGTON, N. C., June 16, 1854.

To persons who have had the sight of their eyes so impaired as to require the use of Glasses, I would recommend Mr. John Tobias as a suitable person from whom to obtain such Glasses as they may require, as he has suited me with a pair of Spectacles for a far and near sight. My sight has been impaired very much by a service of years in the Post Office Department, which berth required me to be on duty from 11 o'clock at night till after day, during which time I used but one light.

W. A. WALKER.

BROOKLYN ORTHOPARDIC INSTITUTION,
April, 1854.

After most careful examination of Mr. J. Tobias's Glasses, I am enabled to testify that their hardness, clearness, polishing, and exact optical shape, render them particularly recommendable to those whose merely optical impairment of the eyes are in want of such auxiliaries. I consider, moreover, Mr. Tobias fully qualified to determine the focus of the eye, both by his optical knowledge and experience, and by means of his optome er. In addition, I can further state, that Mr. Tobias has supplied some of my patients-with Glasses, to their and my entire satisfaction.

Louis Baues, M. D..

Louis Baues, M. D.,
Physician and Surgeon, Berlin; Member of the
Royal College of Surgeons, England; Member of
the Medical Society of London, and of the Patholog-ical Society of New York; late Surgeon of the
Royal Orthopædic Institution of Manchester, Eng-land, and Surgeon of the B. O. Institution.

land, and Surgeon of the B. O. Institution.

Cepy of a testimonial which appeared in the Dail. American Organ, May 21, 1855, from Judge V. Ellis, (late editor:)

"Having suffered for many years past with weakness of the eyes, and that defect of vision which results from a too constant and intense use of these sensitive organs, we were led to make a trial of To-bins's new and improved discovery for the eyes, whose name heads this article. We saw them recommended by sandry geatlemen of Virginia, whom we know, and therefore had less hestation in making the experiment. We are more than pleased with the article. We read with less futigue with these lens than any we had ever tried before; and we see more distinctly with them. Without meaning to disparage the chims of others who have made improvements in Spectacle Lens, we deen it but just to make the above statement. Mr. Tolian resides on Seventh street, opposite the National Intelligencer office."

Lynchung, Nov. 1, 1854.

From an examination of Mr. Tobin's Glasses, and from his observations and remarks, am convinced that he is a skilfan optician.

J. J. Blackford, M. D.

Nonrolk, Va., July 27, 1854.

In the experience of even two years, I have found great difficulty in obtaining Spectacles that were exactly adapted to the weakness of my sight. This inconvenience Mr. Tobias seems to have removed for the present by the substitution for me of better and more smitable Glasses. They are clear, crystal-like, and comfort able to my eyes. I would commend frim to those who, from age or other infirmity, require artificial aid in this way.

J. J. Siekins, M. D.

Sin: The pair of spectacles you furnished me yesterd y are particularly satisfactory to me. They are very decidedly the best I possess, and I am the owner of eight or nine pairs, carefully selected in different places, and from opticians recommended to me on account of their professional standing in France, England, and the United States. I have been also pleased with your remarks and directions on the treatment of the eyes for the purpose of preserving and improving the sight.

Respectfully yours, Chas. Caldwell, Mr. J. Torias.

Mr. J. Toulas. Washington, Ang. 8, 1855.

WASHINGTON, Aug. 8, 1855.

Having been for years under the necessity of having two sets of glasses—one for use in the daylight, and oxe for lamp light—I procured one set from Mr. Tobias which answered both purposes. I have used his for several months, and find them excellent.

EDWAD STUBBS,

Of Department of State.

Petersburg, October 21, 1854.

About five years ago, I obtained from Mr. T. bias, in Washington, a pair of Glasses for the Spectacles which I used, and found them of great assistance to my decaying vision; and my opinion of bim is

to my decaying vision; and my opinion of bim is that he is skilful in the preparation of glasses for eyes not too far gone to be benefitted by such aid. J. F. May.

William Ayer's Pills Are particularly adapted to derangements of the digestive apparatus, and diseases arising from inpurity of the blood. A large part of all the complaints that afflict mankind originate in one of these, and consequently these PILLs are found to cure many varieties of disease.

Subjoined are the statements from some eminent physicians, of their effects in their practice. As a FAMILY PHYSIC

From Dr. E. W. Curturight, of See Oricons.

"Your Pills are the prince of purges. Their excellent qualities surpass any cathartic we possess. They are mild, but very certain and effectual in their action on the bowels, which makes them invaluable to us in the daily treatment of disease." FOR JAUNDICE AND ALL LIVER COMPLAINTS. From Dr. Theodore Rell, of New York City.

"Not only are your Pills admirably adapted to their purpose as an aportent, but I find their beneficial effects upon the Liver very marked indeed. They have in my practice proved more effectual for the cure of billous complaints than any one remedy I can mention. I sincerely rejoice that we have at length a purgative which is worthy the confidence of the profession and the people."

DYSPERSIA - INDIGESTION. DYSPEPSIA — INDIGERTION.

From Dr. Henry J. Knor, of St. Lovis.

"The PRILS you were kind enough to send me have been all used in my practice, and have satisfied me that they are truly an extraordinary medicine. So peculiarly are they adapted to the diseases of the human system, that they seen to work upon them alone. I have cured some cases of dyspepsic and indigestion with them, which had resisted the other remedies we commonly use. Indeed I have experimentally found them to be effectual in almost all the complaints for which you recommend them." DYSENTERY - DIARRHOLA - RELAX.

From Dr. J. G. Green, of Chicago.

"Your Pills have had a long trial in my practice, and I hold them in esteem as one of the best aperients I have ever found. Their atterative effect upon the liver makes them an excellent remedy, when given in small doses, for bilious dynamics and discretes. Their sugar-costing makes them very acceptable and convenient for the use of women and children. INTERNAL OBSTRUCTION-WORMS-SUPPRESSION

From Mrs. B. Stuart, who practises as a Physician and Michvift in Boston. "I find one or two large doses of your Pills, taken at the proper time, are excellent promotives of the natural secretion when wholly or partially suppressed, and also very effectual to cleanes the stomach and expel worms. They are so much the best physic we have that I recommend no other to my patients." CONSTIPATION - COSTIVENESS.

"Too much cannot be said of your Pills for the cure of continenss. If others of our fraternity have found them as efficacious as I have, they should join me in proclaiming it for the benefit of the multitudes who suffer from that complaint, which, although had enough in itself, is the progenitor of others that are worse. I believe confirences to originate in the liver, but your Pills affect that organ and cure the disease."

originate in the liver, but your PILLS affect that organ and cure the disease."

IMPURITIES OF THE BLOOD — SCROFULA — ERYSIFELAS — SALT RHEUM — TETTER — TUMORS
— RHEUMATISM — GOUT — NEURALGIA.

**From Dr. Esskiel Hall, Philadelphia.

"You were right, Doctor, in saying that your PILLS purify the blood. They do that. I have used them of late years in my practice, and agree with your statements of their efficacy. They stimulate the excretories, and carry off the impurities that stagnate in the blood, engendering disease. They stimulate the organs of digestion, and infuse vitality and rigor into the system.

"Such remedies as you prepare are a national benefit, and you deserve great credit for them."

FOR HEADACHE — SICK HEADACHE — FOUL STOM-

you deserve great credit for them."

FOR HEADACHE—SICK HEADACHE—FOUL STOMACH—PILES—DROPSY—PLETHORA—PARALYSIS—FITS—&C.

"DEAR DR. AYER: I cannot answer you what complaints I have curred with your Pills better than to say all that we ever treat with a purguite medicine. I place great dependence on an effectual cathartic in my daily contest with discase, and believing as I do that you Pills afford us the best we have, I of course value them highly."

nave, I or course value them inguly.

Most of the Pills in market contain Mercury, which, although a valuable remedy in skilful hands, is dangerous in a public pill, from the dreadful consequences that frequently follow its incautious use. These contain no mercury or mineral substance whatever.

Ayer's Cherry Pectoral

Ayer's Cherry Pectoral

Has long been manufactured by a practical chemist, and every ounce of it under his own eye, with invariable accuracy and care. It is sealed and protected by law from counterfelts, and consequently can be relied on as genuine, without adulteration. It supplies the surest remedy the world has ever known for the cure of all pulmonary complaints; for COUGES, COLDS, HOAREBRESS, ASTHMA, CROW, WEGOTISC COUGH, BROMCHITE, INCPIENT CONSUMPTION, and for the relief of consumptive patients in advanced stages of the disease. As time makes these facts wider and better known, this medicine has gradually become the best reliance of the afflicted, from the log cable of the American pleasant to the palaces of European kings. Throughout this entire country, in every state and city, and indeed almost every hamlet it contains, CHERKET PECTORAL is known as the best of all remedies for diseases of the throat and lungs. In many foreign countries it is extensively used by their most intelligent physicians. If there is any dependence on what men of every station certify it has done for them; if we can trust our own senses when we see the dangerous affections of the lungs yield to it; if we can depend on the assurance of intelligent physicians, whose business is to know; in short, if there is any reliance upon any thing, then is it irrestably propen that this medicine does cure the class of diseases it is designed for, beyond any and all other remedies known to mankind. Nothing but its intrinsic virtues, and the unmistakable benefit conferred on thousands of sufferers, could originate and maintain the reputation it enjoys. While many inferior remedies have been thrust upon the community, have failed, and been discarded, this has gained friends by every trial, conferred benefits on the afflicted they can never forget, and produced cures too numerous and remarkable to be forgotten.

BLACKWOOD'S MAGAZINE AND THE BRITISH QUARTERLY REVIEWS.

REAT INDUCEMENTS TO SUBSCRIBE! Cost Reduced 50 to 75 per cent. EONARD SCOTT & CO., New York, continued to republish the following British Periodical

to republish the following British Periodicals, viz:

1. The London Quarterly, (Conservative.)

2. The Edinburgh Review, (Whig.)

3. The North British Review, (Free Church.)

4. The Westminster Review, (Liberal.)

5. Blackwood's Edinburgh Magazine, (Tory.)

These Periodicals represent the three great political parties of Great Britain—Whig, Tory, and Radical—but politics forms only one feature of their character. As organs of the most profound writers on Science, Literature, Morality, and Religion, they stand, as they ever have stood, unrivalled in the world of letters, being considered indispensable to the scholar and the professional man, while to the intelligent reader of every class they furnish a more correct and satisfactory record of the current literature of the day, throughout the world, than can be possibly obtained from any other source.

The receipt of advance sheets from the Briush Publishers gives additional value to these Reprints, inasmuch as they can now be placed in the hands of subscribers about as soon as the original editions.

(Regular Prices.)

Payments to be made in all cases in advance. Money current in the State where issued will be received at par.

POSTAGE.

The postage to any part of the United States will be but twenty-four cents a year for "Blackwood," and but fourteen cents a year for each of the Reviews. At the above prices, the Periodicals will be furnished for 1867. Splendid offers for 1856 and 1857 together. Unlike the more ephemeral Magazines of the day, these Periodicals less little by age. Hence, a full year of the numbers (with no omissions) for 1856 may be regarded nearly as valuable as for 1857. We propose to furnish the two years at the following extremely low rates, viz:

For Blackwood's Magazine...... \$4 50

To avoid fractions, \$5 may be remitted for Blackwood," for which we will forward that work Blackwood, for which we will forward that work for both years, postpaid.

N. B.—The price in Great Britain of the five Peri-odicals above named is about \$31 per annum.

As we shall never again be likely to offer such inducements as those here presented, Note is the time to Subscribe.

Remittances must, in all cases, be made direct to the Publishers, for at these prices no commission can be allowed to agents. LEONARD SCOTT & CO., No. 54 Gold Street, New York.

WILLIAM P. SHEDD,

502 Eleventh Street.

The following remedies are offered to the public as the best, most perfect, which medical science can afford. AYRE'S CATHARTIC PILLS have been prepared with the utmost skill which the medical profession of this age poasesses, and their effects show they have virtues which surpass any combination of medicines hitherto known. Other preparations do more or less good; but this cures such dangerous complaints, so quick and so surely, as to prove an efficacy and a power to uproot disease beyond any thing which men have known before. By removing the obstructions of the internal organs and atimulating them into healthy action, they renovate the fountains of life and vigor,—health courses anew through the body, and the sick man is well again. They are adapted to disease, and disease only, for when taken by one in health they produce but little effect. This is the perfection of medicine. It is antagonistic to disease, and no more. Tender children may take them with impunity. If they are sick they will cure them, if they are well they will do them no harm.

Give them to some patient who has been pros-

It is antagonistic to discase, and no more. Tender children may take them with impunity. If they are sick they will cure them, if they are well they will do them no harm.

Give them to some patient who has been prostrated with bilious complaint: see his bent-up, tot-tering form straighten with strength again; see his long-lost appetite return; see his clammy features blossom into health. Give them to some sufferer whose foul blood has burst out in scrofula till his skin is covered with sores; who stands, or sits, or lies in anguish. He has been drenched inside and out with every potion which ingenuity could suggest. Give him these Pills, and mark the effect; see the scabs fall from his body; see the new, fair skin that has grown under them; see the late leper that is clean. Give them to him whose angry humors have planted rheumatism in his joints and bones; move him, and he screeches with pain; he too has been soaked through every musele of his body with limiments and salves; give him these Pills to purify his blood; they may not cure him, for, alas! there are cases which no mortal power can reach; but mark, he walks with crutches now, and now he walks alone; they have cured him. Give them to the lean, sour, haggard dyspeptic, whose gnawing stomach has long ago eaten every smile from his face and every muscle from his body. See his appetite return, and with it his health; see the new man. See her that was radiant with health and loveliness blasted and too early withering away; want of exercise or mental anguish, or some lurking disease, has deranged the internal organs of digestion, assimilation or secretion, till they do their office ill. Her blood is vitiated, her health is gone. Give her these Pills to stimulate the vital principle into renewed vigor, to cast out the obstructions, and infuse a new vitality into the blood. Now look again — the roses blossom on her cheek, and where lately sorrow sat joy bursts from every feature. See the sweet infant wasted with worms. Its wan, sickly features tell you without

Now turn again and see the ruddy bloom of childhood. Is it nothing to do these things? Nay, are they not the marvel of this age? And yet they are done around you every day?

Have you the less serious symptoms of these distempers, they are the easier cured. Jaundice, Costiveness, Headache, Sideache, Heartburn, Foul Stomach, Nausea, Pain in the Bowels, Flatulency, Loss of Appetite, King's Evil, Neuralgia, Gout, and kindred complaints all arise from the derangements which these Fills rapidly cure. Take them perseveringly, and under the counsel of a good Physicia, if you can; if not, take them judiciously by such advice as we give you, and the distressing, dangerous diseases they cure, which afflict so many millions of the human race, are cast out like the devils of old—they must burrow in the brutes and in the sea. Price 25 cents per box —5 boxes for \$1.

Through a trial of many years and through every nation of civilized men, AYER'S CHERRY PECTORAL has been found to afford more relief and to cure more cases of pulmonary disease than any other remedy known to mankind. Cases of apparently settled consumption have been cured by it, and thousands of sufferers who were deemed beyond the reach of human aid have been restored to their friends and usefulness, to sound health and the enjoyments of life, by this all-powerful antidote to diseases of the lungs and throat. Here a cold had settled on the lungs. The dry, hacking cough, the glassy eye, and the pale, thin features of him who was lately lusty and strong, whisper to all but him CONSUMPITON. He tries every thing; but the disease is gnawing at his vitals, and shows its fatal symptoms more and more over all his frame. He is taking the CHERRY PECTORAL now; it has stopped his cough and made his breathing easy; his sleep is sound at night; his appetite returns, and with it his strength. The dart which pierced his side is broken. Searcely any neighborhood can be found which has not some living trophy like this to shadow forth the virtues which have won for the CHERRY PECT

SOLD BY Z. D. Gilman, Washington, And by all dealers in medicine everywhere.

PROSPECTUS THIRTY-FIVE -YEARS' "TRAMPS;"

"BIG BEN,"

A Journeyman Shoemaker.

I PROPOSE TO GIVE AN ACCOUNT OF MY "TRAMPS" in different States, with the scenes, characters, incidents, events, sprees, and adventures, with which I have met, or in which I have participated, including one year apent at sea and three years in the United States Army, in war service. I have had vicissitudes and troubles enough to try any man's soul, and almost ruin his understanding; and now that I am waxing old, and my thread of life is nearly spun out, I take this method of trying to get something that will make all my latter days last in comfort to the end.

My "Tramps" will form a neat volume of one hundred pages, at least, which will be furnished to subscribers hereto at fifty cents, and will be issued as soon as the subscriptions will justify.

My old shop-mates, members of the craft, and others, I trust, will "occasion" for me by subscribing to this. Friends to whom this prospectus is sent are requested to procure subscribers and forward their names to

THE MARCH NUMBER.

The March number of the "Book and Journal" commences a New Series of "Sermons for the I commences a New Series of "Sermons for the I cople." Of the former series, Five Editions have be ne issued, and it is hoped that the New Series will prove worthy of still more extensive circulation. Subscriptions are coming in constantly.

The Subject of the New series is, "The Peerless Magnificence of the Word of God; or, the Supremacy of the Bible, as the only Sensible, Infallible, and Divine Authority on Earth." The Text is—

"Thou hast magnified Thy word above all Thy name."—Ps. exxxvii, 2. The Design is to assert and maintain the distinctive character of the Bible, as, from beginning to end, the Book of Christ, and, as such, the Mediatorial Law of the World.

In a word, the "Book and Journal" is designed to be

to be
A POPULAR, INTERESTING, AND USEFUL
PERIODICAL,
Treating the People—by whom are meant the intelligent and virtuous masses, of all classes, irrespective of their social divisions—with the henest regard, and true devotion to their highest welfare, which are due to their Character, Relations, Influence, and Destiny. TIME, PRICE, AND FORM OF PUBLICATION.

TIME.—The Fook and Journal is issued Morrly.

Thise.—The Fook and Journal is issued Morrly.

Price.—One Dollar a year; Six Copies for Five

Dollars; Single Numbers, ten cents.

Form.—A Beautiful Duodecimo, printed on fine
white paper, in the best style; the "Book" department on small pica type, double-leaded, and the
"Journal" department on long primer type, not
leaded—a handsome combination, as pleasantly
rendable as a book or magazine can be made.

Occasionally, Pictorial fillustrations will be introduced, illustrative of subjects actually in hand, and
instructive as well as attractive.

Subscriptions desired at once.

Good agents wanted, all over the country—Ministers, Postmasters, Booksellers, and others.

*** Copies of the same edition, in paper covers, with lavge margine, untrimmed or trimmed, for such as so prefer them. Price, in paper, 40 cents a Part, or \$4 for the whole work.

FREDERICK FEMALE SEMINARY.

FREDERICK FEMALE SEMINARY,
FREDERICK CITY, MD.

SCHOLARS will be received at any time during the year, and will be charged from the date of their entrance to the end of the scholastic year. The lat of January would be a most appropriate time for them to commence.

This Institution has steadily and permanently increased in numbers for the last eleven years, until the present capacious edifice, which is 50 feet front, 90 feet deep, and four stories high, became entirely inadequate to the growing wants of the school.

In August last, the Trustees commenced another building of the same size and external appearance on the west side of the present edifice. This building is now under roof, and will be ready for occupancy early in the spring.

This addition will give us the largest and most beautiful exhibition room in the city, six large professor's rooms, eighteen additional high, airy lodging rooms, and the whole of the high basement will be fitted up for a gymnasium for the young ladies to exercise in during inclement weather. These improvements make it one of the most extensive and complete establishments in the United States.

This Institution has an able and efficient Board of Professors and Teachers, a good Library, excellent Musical Instruments, an extensive Chemical and Philosophical Apparatus, and it is confidently believed that it offers as many facilities for imparting a thorough, extensive, and refined education as any Seminary in the land.

The school is not sectarian, on the contrary, the young ladies are strictly required to attend such Church as parents designate, accompanied always by a Teacher.

For Board and Tuition, including furnished Rooms,

Chirch as parents designate, accompanies and a Teacher.

For Board and Tuition, including furnished Rooms, Lights, Fuel, Washing, etc., \$290 per scholastic year; payable half yearly in advance.

For Circulars, and other particulars, address H. WINCHESTER, President, References in Washington City, D. C.

Josiah F. Polk, Esq., Vespasian Ellis, Esq.
